Technologies/Frameworks: ReactJS, NextJS, Laravel, MongoDB, Express, Microservices, Docker, Socket.IO, AI API Integration,

Developer Tools: Git & GitHub, VS Code, Postman

EXPERIENCE

Teleperformance

Oct 2024 – Present

Software Developer

Gurgaon, Haryana

- Designing and implementing scalable features to enhance platform functionality and user experience, including dashboard development for efficient data visualization using React and Next.js.
- Developing and maintaining backend services with Node.js and MySQL, optimizing performance, troubleshooting production issues, and contributing to a microservices-based architecture deployed using Docker.

PinnacleWorks Infotech Pvt. Ltd.

Oct 2023 – Oct 2024

Software Development Executive

Gurgaon, Haryana

- Automated critical portal workflows using Laravel and MongoDB, reducing manual QA workload by 80% and improving operational efficiency.
- Optimized application performance and streamlined workflows by collaborating across teams and enhancing system architecture using Nginx and JavaScript-based frontend components.
- Contributed to planning and execution of software development initiatives, ensuring scalable solutions and alignment with business objectives and industry best practices.

PinnacleWorks Infotech Pvt. Ltd.

July 2023 – Oct 2023

Software Development Intern

Gurgaon, Haryana

Cyber Flow

Sept 2021 – Dec 2021

Frontend Developer Intern

Gurgaon, Haryana

PROJECTS

FlashMind 🗄️ | [ReactJS](#), [JavaScript](#), [MongoDB](#), [NodeJS](#), [ExpressJS](#), [Gemini](#), [Microservice](#), [Docker](#)

- FlashMind is an AI-powered study platform for creating and reviewing notes, flashcards, and can take quizzes in English and Hindi.
- It features a modern web UI, detailed analytics, and progress tracking.
- The backend uses Node.js microservices for authentication, content management, and AI-powered generation.
- Key features include multi-language support, file uploads, and educational explanations.

Code Sync 🗄️ | [ReactJS](#), [JavaScript](#), [socket.IO](#), [NodeJS](#), [ExpressJS](#)

- Real-time collaborative code editor facilitating multiple users to code together.
- Each new room created is assigned a unique ID for easy access and collaboration.
- Allows members to collaborate with the host, enabling seamless teamwork and code sharing.

Billinig Expo 🗄️ | [React](#), [JavaScript](#)

- Web application built with React for generating and managing invoices.
- Intuitive interface for inputting customer details, itemizing services, and automating tax and discount calculations; includes printing functionality.
